

an absolute comfort boot

1 year warranty on outsole falls off. Only non-discount item. (Cash bill receipt to be presented for proof of purchase date)

ARCH SUPPORT insole. Cushion even the most extensive walk.

Patterns are stitched to perfection with soft leather lining.

Inner layer is made of full chrome leather to encourage soft, subtle and ventilated.

Outsoles are made of natural rubber without any glue joints. Provide great flexibility.

Fancy for a legendary, comfortable and versatile leather footwear? The foremost important criteria is quality and our Boots offered are made of 100% genuine sheep skin leather, coupled with flexible natural rubber outsoles. The most important key element involved are the insoles. A good comfortable insoles should be easily adaptable to our feet. Each cutting and fitting of the shoes should be able to wrap around a person's feet comfortably, as the longer you wear the better it feels, just like the feel of wearing a sock.

Snowfly Boots are synonymous with absolute comfort. The Boots inner layer are made of full chrome natural rubber and combined with our most important arch support insoles gives a feeling of soft, subtle and ventilated wear.

Ultimately, each pair of Snowfly Boots is designed to be fashionable, promotes a healthy lifestyle and to be enjoyed, comfortably and aesthetically.

So when you choose Snowfly Boots, you're not just choosing a common footwear, you're choosing a premium footwear with superior comfort and 100% leather together backed by **1 year warranty on outsole falls off**. Only for non-discount item. (cash bill receipt to be presented for proof of purchase date).

SNOWFLY ARCH SUPPORT INSOLE

Biomechanically gives you a feel of full comfort, stabilize your feet joints and limit unnecessary heel movement. It can evenly distribute your feet pressure points with each step you take and help reduces strain. The arch support have a memory cushion designed to fit the contours of your feet as you walk or run and will springs right back into shape. Even on your next wear, it will provide you the same level of comfort. By having absolute comfort, it gives the wearer optimum cushioning, absorbing shock forces and very much relieves the feet pressure points.

Each upper arch support insole are made of soft linings and leather with tiny holes for much breathable feel that helps protect against fungi, bacteria and odor.

Not only will you feel a more stable support, but you will have taken the first steps to help relieve stress throughout your entire body and mild back pain, if any.
